Preferred Contact Method: Email or call at 618-830-4062

Preferred Contact Time: Call or email anytime

Breeding Focus: To produce healthy Goldens with good temperament for family pets, as well as breed champions, agility, obedience, rally, tricks, tracking, field, and therapy dogs. I have several Children certified therapy dogs working in hospitals. It is important to produce healthy dogs with longevity that still have natural retrieving instincts, as well as being beautiful representatives of the breed.
